About Coaching for Youth

- **Foundation 'PERITIA' performed coaching sessions as a part of the project Youth Academy of Responsible Business Leaders.** The project was enforced by Wielkopolska Foundation of Enterprise Development, Learning Association 'Pro Academia' and the participants of Academy of Responsible Business Leaders (including Foundation 'PERITIA').
- **It was designed for young people (grammar schools and high schools) who are going to realize their ideas aimed to the local communities as well as to their personal development.**

About Coaching for Youth

- The Foundation 'PERITIA' offered also free coaching sessions for the high and technical schools youth (14-19/20 years old).
- **Coaching (and coaching sessions) were used as a testing tool for youth/youngsters to see whether this tool supports the youth in learning how to cope with difficulties and challenges.**
- **The results were great and in many cases we got feedback that they (young people) did not believe that coaching would be of any support and in fact it changed almost every aspect of the life , starting from the family relations, carrier choices etc.**

About Support for Youth with SEMPRES project

- **INTERREG is about fostering and supporting partners from around the Baltic Sea area** in order to learn from each other, to share experience and to develop new products and innovative approaches jointly
- **Our main focus is on capacity building of professionals working in the social service sector (social service providers).** Enabling the staff to work with their end users /beneficiaries / clients /customers more effectively and efficiently will contribute to a sustainable and affordable social infrastructure on a financially sound basis.
- **Social service providers will deploy more and better tools for empowering members of marginalized groups starting from the macro (European) till micro (local) level.**
- **SEMPRES is understood to be a laboratory for experiment and development**

About Support for Youth with SEMPRES project

- **Target group- end user group for Wielkopolska region- youth**
 - 1.Youth in general 13-19/20 (gymnasium, high school)
 - 2.Youth from orphanages and foster homes
 - 3.Youth with physical disabilities
 - 4.Students with physical disabilities
- **Results:**
 - Enhancing the youth, other special groups to cooperate together (going out of their homes) and take local initiatives
 - Joint developing of products and services which are supporting social innovations and service innovations
 - Renewing public services through innovations- after the project is finished the local centers could be run by the local authorities or by an NGO with support (also financial) of local governmental that could secure the sustainability of the results (also after 2020 when we UE funds will be very limited for Poland)
