

CLLD Cooperation OFFER

Title of the proposed project

Jobs Innovation in Rural Areas (JIRA) – A Call up

Type of project

- Cross-border cooperation
- With other MSs (no shared border)

Brief summary of the project idea

The projects is focused to investigate at European scale the most advanced and successful experiences in building new jobs experiences in rural areas. The first step the project will deal with the investigation of emblematic study cases and exchange of knowledge. The case of mutual approaches, community cooperatives, multisectorial job experiences, and other innovative experiences else will be considered.
The second step will be share of knowledges and dissemination of the best practices.

new jobs, multisectoral jobs, communication, networking

Objective

Initial position / background / local context of the proposed project

In most of Leader rural areas there are single advanced job experiences. The project is aimed to investigate and create a rural European network of best practices in terms of job innovation.

Proposed objectives / target group and activities

Any LAG partner of JIRA project will candidate the best experience of its area. Starting from problems, objectives and solutions the project partnership focus group will analyze the innovative solutions development at local scale. An intermediate report will be used to disseminate the knowledge and to spread the best practices within the partners areas in terms of management, enterprise framework, communication, and link with local values.

A common vision and network within the project will create the opportunity to enhance the quality and the value of any single experience within a **CLLD European network system on innovative jobs in rural areas**.

Country and /or kind of partner you are looking for

JIRA project is looking for innovative and visionary new job experiences in rural areas (there are not preselected countries)

Languages spoken by your LAG staff

English will be the language of the project.
