

Partner search from Finland

Applicant: Etelä-Häme Dance school (LAG EMO area in Southern Finland)

1/ Working name for the project: “dance and learn”

Main Ideology

Exchange of danceworks and teaching methods

Objectives

Etelä-HämeenTanssiopisto is one of the twelve private dance schools in Finland supported permanently by the Ministry of Education and Culture. We are working on the countryside in southern Finland (app. 70 km from Helsinki, capital of Finland). The school is offering classes mainly in classical ballet but also in contemporary dance and dance for children from the age of three. Our aim is to give good –quality dance education on the countryside as well as to produce dance performances in a happy and friendly environment.

We are now looking for a dance school for cooperation with whom we can do exchange of danceworks. We are at the moment for example creating a ballet “snow white” for children and young students for the winter 2013. This piece we could carry out with you too! Music will be composed specially for this piece and will be played with little (professional) orchestra.

Snow white for children and young students would be ready by February 2013 and it could be brought and taught to the partner dance school pupils after that. We on the other hand would like You to bring us a dancework and teach it to our students. The project would involve exchange of teaching methods. If You are interested, please contact us.

Preparative visits could be made this autumn.

We are mainly looking for partners in England, Sweden, Denmark, Germany, France and Spain.
