

Projects from Germany

Innovation

Glass Organic Dairy: Transparency from Farmer to Fridge: In early 2010 the first nationwide glass dairy in Münchehofe was opened. It processes organic milk from the surrounding organic farmers and gives visitors an insight into the manufacturing and production processes of the regional dairy products.

Young People in Difficulty – The Circus to the Rescue: This project assists young people with behavioural problems to develop new attitudes to learning and society with a workshop helping them to create a circus programme. Parents and other voluntary helpers assist by providing equipment and their time.

Projects from Sweden

Quality

Promoting Local Food: “Taste delights” Food Experience Fair: The “Taste Delights” fair is the biggest annual Nordic event for small scale artisan food production and producers. It facilitates and encourages regions to promote their local and tourism value, focusing on local food production.

Projects from Poland

Quality

'Smak na produkt' - local food product branding in Poland: Cooperation between Leader Local Action Groups (LAGs) in Poland & Austria aims to promote local food products via a series of events and to help register food products in official databases in order to formally establish their market presence.
