

Added Value of Networking

Success Story

Success Story title *Conference, information fair and guideline on European / German funds (support programmes on rural development, German development banks including their offers etc.)*

Theme *Network communications; Knowledge exchange;*

NRN *Germany* Coordinator *NSU*

Partners *Different ministries, different German development banks, other German institutions*

Period *2010*

Geo-location *Conference and information fair in Würzburg*

Beneficiaries *WLocal Action Groups*

Background

For local actions groups / local actors there are a lot of different funding possibilities - either at European or at German levels including also the German development banks. Clarifying funding possibilities was the project aim.

Main activities

Analysis of the European and German variety of funding possibilities

Main results/benefits

- Organization of a fair with all the main contact persons;
- Presentation of good practices during a conference "How to combine different fundings";
- Publication of a Guideline where all the different funds are presented in different ways: You can either look for a theme like natural resource or cultural heritage or you can look for possible beneficiaries.

Contribution of the NSU

Provision of ideas, coordination of the publication and organization.

Contribution of the partners

Provision of information.

Success factors

Giving rural actors an overview and contact persons on different funds (European, German, local) and showing them how to combine different funds.
